Good Practice Examples of ARQA-VETs work

... 3 ...

We are perceived as an expert organisation and service point when it comes to quality in the school-based IVET-sector in Austria.

Supporting the quality management system of Austrian VET schools at system and provider level is one of our major tasks.

As Good Practice we want to highlight the following....

Good Practice Example I: our conference

... 4 ...

Our annual **quality network conference** gives us the opportunity to bring up relevant topics in quality management.

We have a ever increasing community who attends our conference.

This year - the 8th QNWK:

December 5th 2016

in Vienna!

ZAHLEN, DATEN, FAKTEN für das QUALITÄTSMANAGEMENT

Chancen und Herausforderungen für die Schul- und Unterrichtsentwicklung

Good Practice Example II: QUALI-QIBB

From VET-CERT to QUALI-QIBB!

Support for VET schools in their work on quality and quality management:

- Training courses for headmasters and quality managers in schools (QUALI-QIBB)
- Further training and counselling for different stakeholder groups (QPM...) on quality-relevant topics
- Development of Tools (Feedback for Teachers, Follow-up Tool for Evaluation....)

QUALIFIZIERUNG IN UND FÜR QIBB
QUALI-QIBB

Good Practice Example III: Policy Support

... 7 ...

Policy support for the Ministry of Education (Bundesministerium für Bildung, BMB): We provide our expertise for the development and further improvement of QIBB, the Quality Initiative for Austrian VET schools.

For example...

- We are active members in ministerial working groups for QIBB and evaluation.
- We provide concepts and tools for QIBB.
- We support the upcoming **meta-evaluation** of the Quality Management System (QIBB)

•

.....

How do we reach the regular VET teachers with these actions?

... 9 ...

The involvement of teachers in quality management is a permanent concern for us.

As a National Reference Point we usually do not work with teachers directly but with „function holders“ (headmasters, quality managers, school inspectors...). We try to create an awareness of the importance of teacher involvement.

So our main question is:

How can we build or improve our quality management system in a way that it is of greater relevance to teachers?
